

Matin Kaviani

Front-End Developer

Mobile: +98 910 763 8129 | Email: matinkaviani@gmail.com | LinkedIn: linkedin.com/in/matinkaviani

Summary

Front-End Developer with 5+ years of experience delivering deadline-driven solutions using TypeScript, Tailwind CSS, and Node.js, with active contributions to the React community. Skilled in Micro Front-End architectures and business flow development with a scalable approach. Committed to delivering high-impact results and building efficient, maintainable codebases with a strong focus on quality and performance.

Skills

Languages & Frameworks	• TypeScript, JavaScript (ES6+), React.js, Next.js, Vue.js, Nuxt.js
UI & Styling	• TailwindCSS, shadcn/UI, Ant Design, Base UI, Radix UI, SCSS, CSS Modules, Framer Motion
State & Forms	• React Query, Zustand, Recoil, Redux, RTK, TanStack Form, React Hook Form, Zod
Next.js Features	• Server Actions, API Routes, App Router, SSR, SSG, ISR, PPR, Middleware, PWA
Testing & Quality	• Jest, ESLint, Prettier, husky, Storybook
DevOps & Tools	• Git, Docker, CI/CD, Monorepo (Turborepo), SWC, Vite, Puppeteer
Databases & Backend	• PostgreSQL, Firebase, Strapi, Payload CMS, GraphQL, REST
Charts & UI Components	• Highcharts, Recharts, AG Grid, TanStack Table
Other	• SOLID Principles, Accessibility, UI/UX Collaboration

Work Experience

Vikarno. (Fintech) Front-End Developer	<i>Tehran, Iran</i> Dec 2024 – Present
- Developed a comprehensive e-commerce (drerfanorchid) platform using Next.js and TypeScript, featuring multi-tenant software-as-a-service (SaaS) solution with order management, inventory tracking and customizable shipping solution. - Built the customer-facing storefront using Shadcn UI components, focusing on responsive design, accessibility, and a polished shopping experience. - Created OMoney, a full-stack digital wallet and payment platform using Vite, TypeScript, and React 19, featuring multi-language support (English, Arabic, Persian), wallet balance management, invoice generation and tracking, service management, and real-time payment processing with QR code integration. - Architected and developed a comprehensive contract management platform using Next.js 15, React 19, and TypeScript, featuring dual-role authentication (admin/user), EKYC, digital signature integration, and real-time contract tracking with advanced data tables and filtering capabilities. - Architected and implemented an end-to-end PDF generation subsystem, rendering server-side React templates to HTML and producing pixel-perfect PDFs via headless Chromium (Puppeteer), post-processing for visual and cryptographic signature embedding, streaming large documents, storing artifacts in S3-compatible storage with checksum and DB audit records, and exposing secure presigned URL / streamed endpoints for delivery.	
Qaay. (Crypto Fintech - Remote) Front-End Developer	<i>Canada</i> Jan 2025 – Present
- Built a crypto finance dashboard in Next.js 15 and TypeScript with modules for portfolio, lend, borrow, swap, deposits, and withdrawals, leveraging App Router, SSR/ISR, and route middleware. - Designed a reusable UI system and performance layer (design tokens, memoized selectors, virtualization, Suspense-friendly hooks), reducing unnecessary re-renders by ~45% and CLS by ~30% across the dashboard. - Integrated Payload CMS for content/admin under isolated (payload) routes and hardened auth flows with secure OTP and session handling. - Optimized bundle and runtime: aggressive code-splitting, image/CDN strategy, virtualization, and memoization—reduced TTI by ~35% and JS payload by ~28%. - Established CI/CD with Docker and Bitbucket Pipelines, added lint/test gates, and improved DX with typed APIs, custom hooks, and contexts.	

Continue

Agah Group, Asa Co. (Stock Market)

Front-End Developer

Tehran, Iran

Dec 2021 – Mar 2024

- Utilized **React** and Ant Design UI kit to develop a web application for stock data analysis (Research) for Agah Broker.
- Implemented **Recoil** state manager and Context API to avoid prop drilling and handling complex states in components, resulting in a 40% increase in development precision and a 25% boost in development efficiency.
- Collaborated in a team of 9 to ensure smooth integration of components for Agah Broker's stock data analysis web app.
- Enhanced data visualization by plotting intricate charts using **Highcharts**, leading to a 15% improvement in readability of statistical data.
- Increased code maintainability by 15% and reduced page load times following a migration to **Next.js** and **TypeScript**.
- Wrote test suites using **Jest** for unit testing and integration testing, resulting in a 20% improvement in development workflow.

Projects

🔗 **Agah Research:** Developed core modules for Agah Broker's stock research and data analysis web application. Built reusable UI components, complex data tables, and interactive charts for market visualization. Improved state management using Recoil and Context API.

Tech: React, Next.js, TypeScript, Highcharts, Ant Design, Recoil

Address: <https://research.agah.com>

🔗 **Dr Erfan Orchid:** Designed and developed a multi-tenant e-commerce SaaS platform with responsive storefront, customizable product flows, advanced checkout, and dynamic shipping logic.

Tech: Next.js, TypeScript, Shadcn UI, TailwindCSS, React Hook Form, Zod, Payload CMS, React Query, Monorepo

Address: <https://drerfanorchid.com>

🔗 **Dara (CSDI Iran):** Built a unified stakeholder portal for Iran's capital market under the Central Securities Depository of Iran (CSDI), enabling investors, issuers, and brokers to access real-time portfolio data, transaction reports, dividend history, and e-voting in general assemblies.

Tech: Next.js, TypeScript, Shadcn UI, TailwindCSS, React Hook Form, React Query, TanStack Table

Address: <http://dara.csdiran.ir>

🔗 **Setareh Masoumi:** Designed and developed a high-performance personal portfolio website with smooth animations, dynamic content management, and SEO-optimized routing. Integrated a custom CMS structure using Strapi to enable fully editable sections, galleries, and blog content.

Tech: Next.js, TypeScript, TailwindCSS, Framer Motion, Strapi

Address: <https://setarehmasoumi.com>

Languages

English: B2

Persian: Native

Education

Islamic Azad University, North Tehran Branch

B.S. in Software Engineering

Tehran, Iran

2018 - 2022

- Graduated top of class in computer science coursework.
